Professional Summary

Frontend Developer with hands-on experience building responsive, interactive web applications using HTML5, CSS3, JavaScript (ES6+), and React.js. Skilled in modern frontend development, REST API integration, and responsive UI design. Completed a Python Full Stack Development course to strengthen full-stack web development knowledge. Eager to contribute technical skills and continue growing as a Frontend Developer.

Technical Skills

Frontend Language: HTML5, CSS3, JavaScript (ES6+)

Libraries & Frameworks: React.js, React Hooks, React Router, Context API

Concepts & Architecture: Component Lifecycle, Props, Responsive Web Design, UI/UX Principles

API & Backend Integration: Fetch API, REST API Integration, Async/Await, JSON Data Handling

Tools & Platforms: Visual Studio Code (VS Code), npm, Vite, Vercel, Git/GitHub

Projects

Currency Converter App

- Developed a real-time currency conversion application using vanilla JavaScript (ES6+), HTML5, and custom CSS3 flexbox layouts.
- Integrated live currency exchange rate REST APIs to calculate accurate multi-currency valuations across dozens of international currencies.
- Applied DOM manipulation, input validation, and asynchronous async/await network requests to deliver a responsive, reactive user interface.

Coffee Website

- Designed and deployed a mobile-first e-commerce web platform for a coffee brand, following responsive design principles.
- Built custom CSS3 keyframe animations and smooth scrolling behaviors, ensuring full cross-browser compatibility across desktop, tablet, and mobile.
- Focused on web performance optimization, clean code structure, and web accessibility standards.

Internships

Web Development Intern — Bharat Intern

2023

- Gained practical experience across both front-end and back-end development.
- Built responsive web pages, debugged code, and collaborated on projects to improve user experience.
- Developed, tested, and deployed web applications while strengthening problem-solving skills.

Web Development Intern — InternPe

2024

- Learned front-end and back-end development fundamentals using HTML, CSS, JavaScript, and related frameworks.
- Built responsive web pages, debugged code, and collaborated on projects to improve user experience.

Education

B.Tech, Computer Science Engineering

2022 – 2025

B.S. Abdur Rahman Crescent Institute of Science and Technology

Certifications

- Python Full Stack Developer

2026

Soft Skills

Analytical Problem Solving & Adaptability, Effective Communication, Teamwork & Collaboration, Time Management, Quick & Smart Learner
